

# Technical Data Sheet

## KB-946

### Fast Setting Sheetfed Stay Open

---

#### Product Description

---

**KB-946** is formulated to be fast setting, high gloss, and press stable at the highest press speeds. Inks made with this system exhibit superior body control, lithographic properties, and will show better gloss and rub properties when compared to other fast setting ink systems. **KB-946** has been designed to use conventional quickset flushes, and will be compatible with most systems available today. Because of this excellent compatibility, you will **not** see bronzing, opaque colors, and short puffy inks that are produced by limited dilution systems on the market today.

#### Performance Characteristics

---

- Ultra fast set speed gelled varnish
- Excellent work and turn characteristics.
- Stay Open properties
- Above average stability in relation to solids.

#### Physical Properties

---

<b>Tack @ 400 RPMs/1':</b>	10-12
<b>Viscosity in Poises:</b>	450 – 750 (Rheometer)
<b>% Solids:</b>	70 - 72
